

CHAITHANYA A

Data Analyst | Python, SQL, Power BI, Excel VBA | Exploratory Data Analysis & Business Reporting

Kochi, Kerala • +91 7736357366 • chaithanyaa04@gmail.com • [linkedin.com/in/chaithanya-a-analyst](https://www.linkedin.com/in/chaithanya-a-analyst)

SUMMARY

Data Analyst with hands-on experience in Python, SQL, Power BI, and Excel, focused on exploratory data analysis, dashboard development, and translating complex datasets into actionable business insights. Experienced in building automated reporting workflows, performing rigorous data quality checks, and supporting cross-functional, data-driven decision-making across business units.

TECHNICAL SKILLS

Programming: Python (Pandas), SQL

Data Analytics: Data Cleaning, Data Preprocessing, Data Transformation, Exploratory Data Analysis (EDA), ETL, Root Cause Analysis (RCA), Business Research, Trend Analysis

Data Visualization: Tableau, Power BI, DAX, Power Query, Dashboard Development, KPI Reporting, Interactive Filters, Data Modeling

SQL / Databases: PostgreSQL, SQL Joins, CTEs, Subqueries, Aggregations, CASE Expressions, Data Extraction, Relational Data Analysis

Microsoft Excel: Pivot Tables, Pivot Charts, VLOOKUP, XLOOKUP, Formulas, Dashboard Development, VBA/Macros(Basic)

Tools: Git, GitHub, VS Code

Programming Fundamentals: C Programming, HTML

EXPERIENCE

Data Analytics Intern

May 2026 – Present

Camerin Technologies Pvt. Ltd.

- Applied Python (Pandas), SQL, Microsoft Excel, and Power BI to clean, transform, and analyze real-world datasets, delivering business reports used to inform stakeholder decisions.
- Performed SQL and Python-based analysis using joins, aggregations, CTEs, and subqueries to uncover trends and support data-driven recommendations.
- Built interactive Power BI dashboards with data modeling, DAX measures, Power Query transformations, and KPI reporting, enabling stakeholders to track performance metrics in real time.

PROJECTS

Brazilian E-Commerce Sales & Logistics Analytics 🔗

Jul 2026

Python (Pandas), PostgreSQL, SQL, Power BI, DAX

- Cleaned and transformed multi-table e-commerce data using Pandas, handling missing values, data type conversions, and relational integration to produce analysis-ready datasets.
- Performed advanced PostgreSQL analysis (joins, CTEs, subqueries, aggregations, CASE expressions) to uncover insights across sales, products, customers, payments, reviews, and logistics.
- Built a 4-page Power BI report with DAX measures and interactive filters, giving stakeholders visibility into revenue trends, customer and product performance, delivery efficiency, and customer satisfaction — directly supporting operational decision-making.

Sales Performance Dashboard 🔗

Jun 2026

Microsoft Excel (Pivot Tables, Pivot Charts, Formulas)

- Built an interactive Excel dashboard analyzing Rs. 1,12,240 in sales across 60 orders, with KPIs for revenue, quantity sold, order volume, and average order value to support quick business review.
- Analyzed performance across salespersons, products, categories, months, districts, and payment modes using Pivot Tables and interactive filters to identify high-value products and actionable sales trends.

EDUCATION

B.Tech in Electronics and Communication Engineering

2022 – 2026

SCMS School of Engineering and Technology

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Complete Data Analyst Bootcamp: From Basics to Advanced (In Progress, Udemy) • Crash Course on Python (Google) • Microsoft Excel: Beginner to Advanced (Udemy)

SOFT SKILLS

Analytical Thinking • Problem Solving • Communication • Team Collaboration • Adaptability
