B.Tech in Electronics and Communication Engineering	Expected 2026
SCMS School of Engineering and Technology	

Higher Secondary – Computer Science	2022
Bhavan's Adarsha Vidyalaya	

Technical Skills

Databases: SQL, PostgreSQL

Visualization: Power BI

Spreadsheet Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Charts)

Programming: Python (Basic), C (Basic)

Tools: Visual Studio Code, SQLTools, Git, GitHub

Analytics: Data Cleaning, Data Transformation, Dashboard Development, KPI Reporting

EXPERIENCE

Data Analytics Intern

Camerin Technologies Pvt. Ltd.

- Assisted in data cleaning, transformation, and reporting activities.
- Created and analyzed dashboards using Power BI.
- Worked with Excel datasets for reporting and business analysis.
- Generated insights to support data-driven decision-making.
- Collaborated with team members on analytics and reporting tasks.

PROJECTS

Global Store Sales Analysis Dashboard | Power BI

- Developed an interactive dashboard to analyze sales, profit, and quantity metrics.
- Created KPI cards and performance reports.
- Identified top-performing regions, products, and categories.

Superstore Sales Performance Dashboard | Power BI

- Built a dashboard to analyze sales trends and profitability.
- Designed interactive filters and drill-down reports.
- Generated business insights through visual analytics.

HR Analytics Dashboard | Power BI

- Created dashboards to analyze workforce metrics and employee distribution.
- Monitored HR KPIs and department-level performance.
- Visualized workforce insights through charts and reports.

Oscar Movies Analysis Dashboard | Power BI

- Analyzed movie ratings, genres, nominations, and awards.
- Created interactive reports for trend analysis.
- Presented insights through visual storytelling.

Sales Performance Analysis Dashboard | Excel

- Utilized Pivot Tables, Charts, Lookup Functions, and Conditional Formatting.
- Developed an interactive sales dashboard.
- Generated insights on sales trends and product performance.

Job Market Data Analysis | SQL

- Analyzed a real-world job postings dataset using PostgreSQL to uncover hiring and salary trends.
- Developed complex SQL queries involving **JOIN**, **GROUP BY**, **HAVING**, subqueries, and Common Table Expressions (CTEs) for data analysis.
- Identified in-demand skills, top-paying job roles, geographic hiring patterns, and salary insights through exploratory data analysis.
- Utilized SQLTools and Visual Studio Code to efficiently query, manage, and analyze the PostgreSQL database.

CERTIFICATIONS

- Data Analytics Training (Ongoing)
- Crash Course on Python – Google
